

Dear friends,

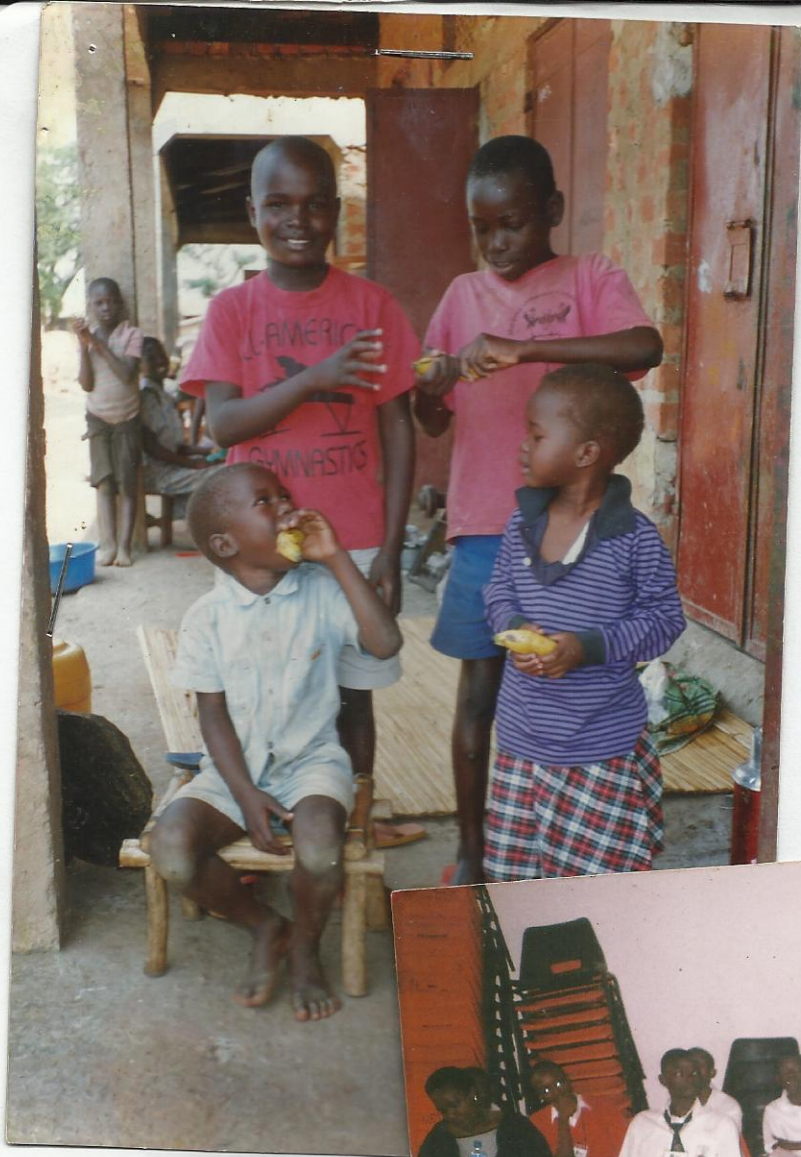

Hope things are going on fine on your side over there? I am Okello Isaac a Ugandan in the northern part, I live in Gulu. I have a great dream of becoming a civil rights activist. Now I am 21 years old ripe for the university but the main stumbling block is how to get there. It is financial problem. But I believe that together with hope I will get to the peak of my dream.

Friends I am stuck of how I can raise my school fees bills. I am an orphan ^{who} was being supported by an organisation Aid Africa from 2008-2011. The organisation ~~target~~ target was Senior Six which I completed in 2011 and now I am suppose to get to the university which I am qualified for it but I lack the finance part of the requirement. My mother who should have stood there to help me is weak suffering from high blood pressure, Diabetes and mental problem. All my 4 brothers did not go to school because no one could pay their fees. Most people of my age in Uganda have given up in life and resorted into other antisocial acts but because they say "No man in a virgin land" I have dreams and given the opportunity I can breakthrough.

Friends I surely ask you with all the kind heart and calls to help me in any way no matter how much so that I can get there. I want to fight for liberty and human rights because in Uganda today ~~100s~~ hundreds of people face injustice in Uganda in many forms and as the say words can change the world I am ready to change Uganda. Currently we have ~~from~~ formed a youth debate network known as The northern Uganda students debaters network. which unites young people to articulate matters of the society, we also participate at the National debate championship and public debates. I am a debaters and I like to debate issue all the time.

You can read ~~about~~ about me from Facebook
~~Okello~~ Isaac Okello, ~~in uganda~~, and on email
Okelloiamuru@gmail.com. You can also get the youth
network on nusdn@gmail.com then you can get
young debating and ready the change and
transform northern uganda by the power of
human words.

I happen to meet Kyla in gulu
at Aid Africa office and ~~he~~ asked her how
best she can help me to achieve my dream.
I really love to always speak and make change
but it is not easy in uganda to do it without
finance, I ask you to help in anyway you can;
I have hope like I have never had before and
a promise never to disappoint your struggle for me
but to always make you feel glad and respected
I love you all and wish you prosperity as
we change the world by the power of
words.
